Subject: Information to satisfy public records request....

Kathy,

Please find an attached PDF file of all existing contracts. I have also attached a spreadsheet which includes several tabs to help show more exactly what we paid for existing systems. Currently Adams County pays all maintenance contracts once per year. If the State would ever require us to cancel any of these contracts I would need to know within at least 1 ½ years from the point of cancellation so that written notice could be provided to each vendor.

Please let me know if you need anything else.

Patrick Norton
